

## NHZ 07. Northern Highland

**Figure 1:** NHZ 07. Northern Highland.

Trends in breeding numbers are available for one species and trends in breeding success for one of the 14 species for which the SRMS holds records for NHZ 07. Northern Highland (Table 1).

### *Golden Eagle*

No trend is available for the number of breeding pairs. Breeding success showed no significant change. No trends are available for clutch size, brood size or the number of fledglings (Figure 2).

### *Red Kite*

The number of breeding pairs showed no significant change. No trends are available for breeding success, clutch size, brood size or the number of fledglings (Figure 3).

**Table 1:** Summary of SRMS trends for NHZ 07. Northern Highland during 2009-2018. Non-significant changes are highlighted in grey. ‘—’ indicates where the species occurs but no trend is available. ‘No SRMS data’ indicates where the SRMS does not hold any records for the region of interest.

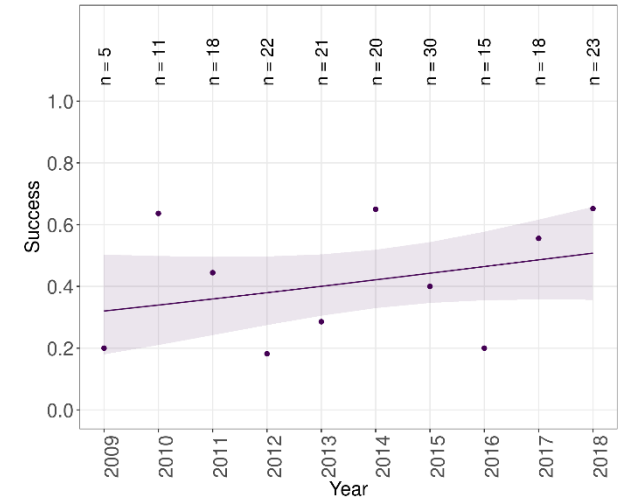

<b>Species:</b>	<b>Pairs</b>	<b>Success</b>	<b>Clutch size</b>	<b>Brood size</b>	<b>Number of fledglings</b>
Osprey	—	—	—	—	—
Golden Eagle	—	Not significant <sup>s</sup>	—	—	—
Sparrowhawk	—	—	—	—	—
Goshawk	No SRMS data	No SRMS data	No SRMS data	No SRMS data	No SRMS data
Hen Harrier	—	—	—	—	—
Red Kite	Not significant <sup>svx</sup>	—	—	—	—
White-tailed Eagle	—	—	—	—	—
Buzzard	—	—	—	—	—
Barn Owl	—	—	—	—	—
Tawny Owl	—	—	—	—	—
Kestrel	—	—	—	—	—
Merlin	—	—	—	—	—
Peregrine	—	—	—	—	—
Raven	—	—	—	—	—

<sup>s</sup> Sample sizes small, <sup>v</sup> Variable effort, <sup>x</sup> Expanding population.

No trend available  
for breeding pairs

Trend in Success of Golden Eagle in 07. Northern Highlands  
using SRMS data

07. Northern Highlands trend: Not significant (caveats:  
Sample sizes small)

No trend available  
for clutch size

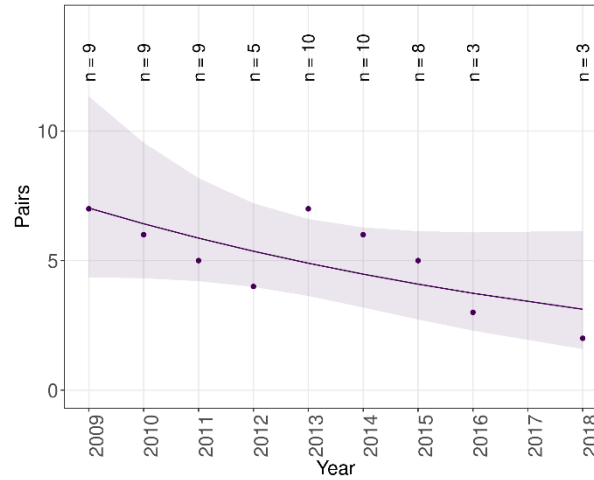

No trend available  
for brood size

No trend available  
for number of fledglings

**Figure 2:** Trends in breeding pairs, success, clutch size, brood size and the number of fledglings of Golden Eagle in NHZ 07. Northern Highland during 2009-2018.

Trend in Pairs of Red Kite in 07. Northern Highlands using SRMS data

07. Northern Highlands trend: Not significant (caveats: Expanding population, Sample sizes small, Variable effort)

No trend available for breeding success

No trend available for clutch size

No trend available for brood size

No trend available for number of fledglings

**Figure 3:** Trends in breeding pairs, success, clutch size, brood size and the number of fledglings of Red Kite in NHZ 07. Northern Highland during 2009-2018.
