

NHZ 08. Western Highlands

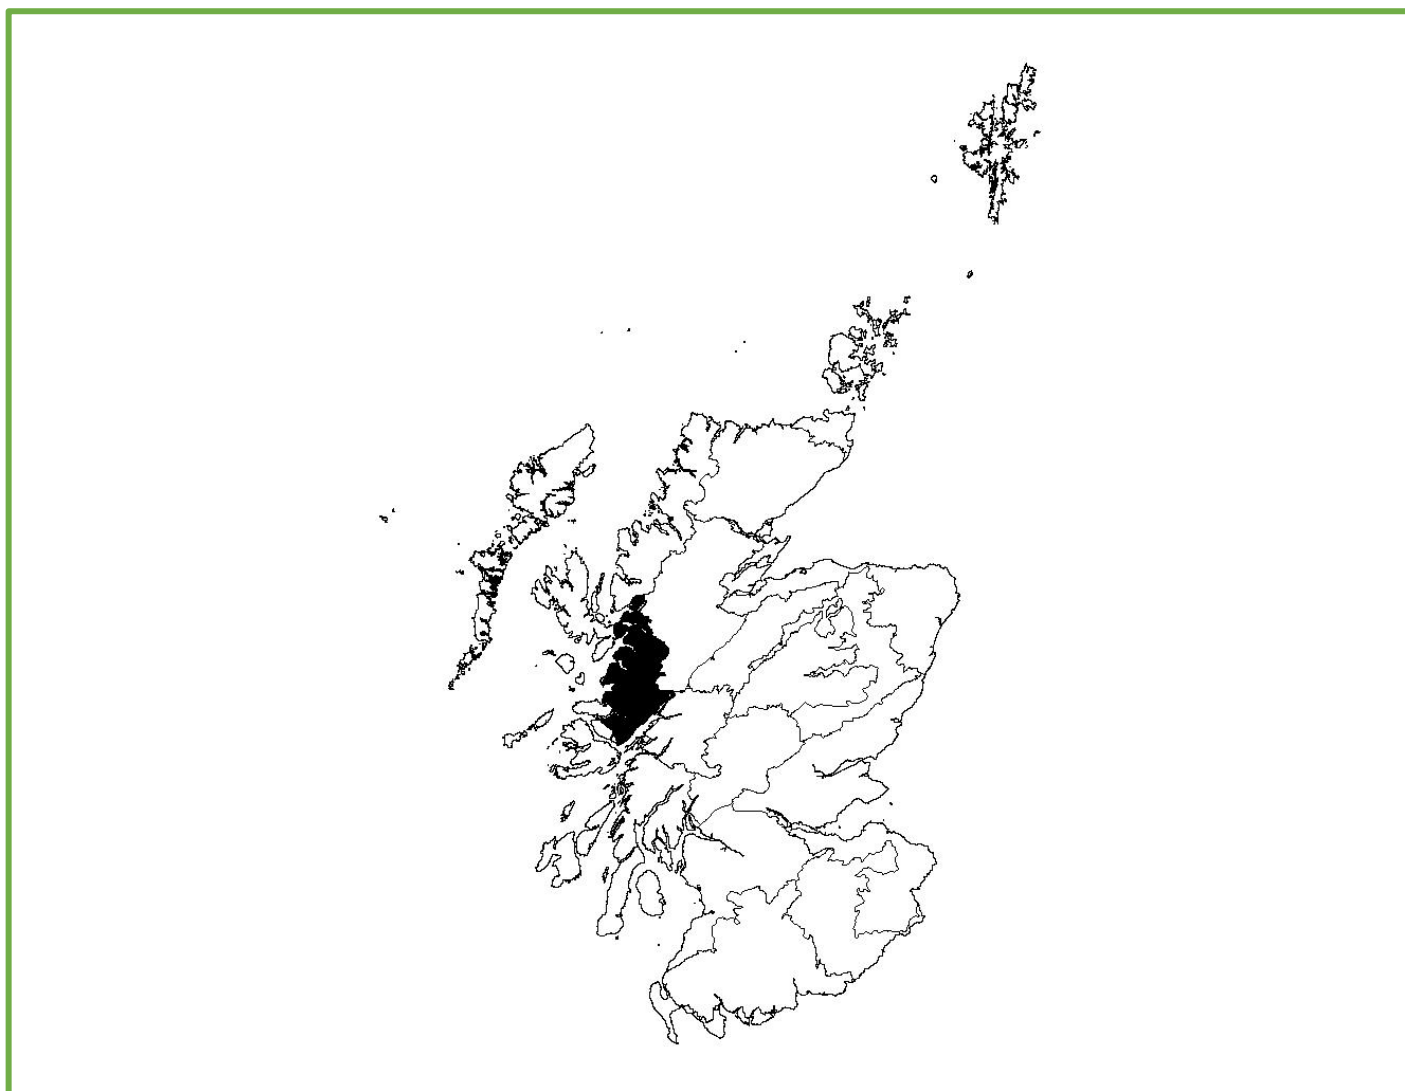

Figure 1: NHZ 08.Western Highlands.

Trends in breeding numbers are available for one species and trends in breeding success for one of the 12 species for which the SRMS holds records for NHZ 08. Western Highland (Table 1).

Golden Eagle

No trend is available for the number of breeding pairs. Breeding success showed no significant change. No trends are available for clutch size, brood size or the number of fledglings (Figure 2).

White-tailed Eagle

The number of breeding pairs showed no significant change. No trends are available for breeding success, clutch size, brood size or the number of fledglings (Figure 3).

Table 1: Summary of SRMS trends for NHZ 08. Western Highlands during 2009-2018. Non-significant changes are highlighted in grey. ‘—’ indicates where the species occurs but no trend is available. ‘No SRMS data’ indicates where the SRMS does not hold any records for the region of interest. ‘Absent’ indicates where the species is not known to breed.

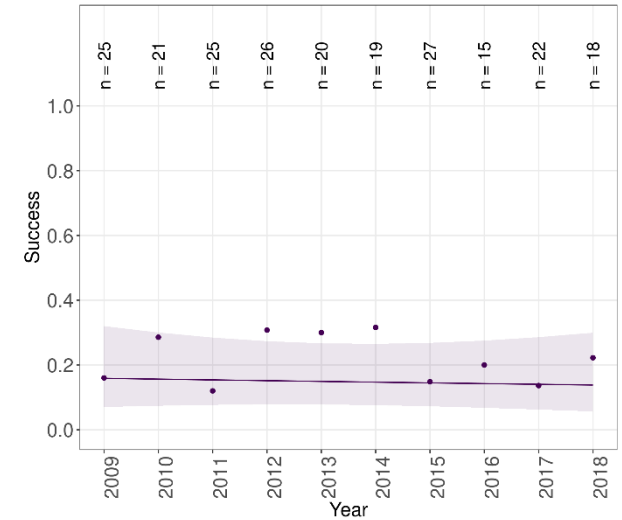

Species:	Pairs	Success	Clutch size	Brood size	Number of fledglings
Osprey	—	—	—	—	—
Golden Eagle	—	Not significant	—	—	—
Sparrowhawk	No SRMS data	No SRMS data	No SRMS data	No SRMS data	No SRMS data
Goshawk	Absent	Absent	Absent	Absent	Absent
Hen Harrier	—	—	—	—	—
Red Kite	Absent	Absent	Absent	Absent	Absent
White-tailed Eagle	Not significant ^{ax}	—	—	—	—
Buzzard	—	—	—	—	—
Barn Owl	—	—	—	—	—
Tawny Owl	No SRMS data	No SRMS data	No SRMS data	No SRMS data	No SRMS data
Kestrel	—	—	—	—	—
Merlin	—	—	—	—	—
Peregrine	—	—	—	—	—
Raven	—	—	—	—	—

^a All data used, ^x Expanding population.

No trend available
for breeding pairs

Trend in Success of Golden Eagle in O8. Western Highlands
using SRMS data

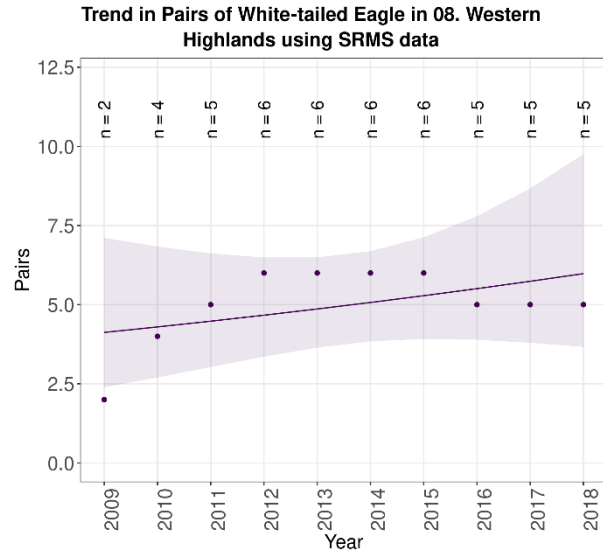

O8. Western Highlands trend: Not significant

No trend available
for clutch size

No trend available
for brood size

No trend available
for number of fledglings

Figure 2: Trends in breeding pairs, success, clutch size, brood size and the number of fledglings of Golden Eagle in NHZ O8. Western Highlands during 2009-2018.

08. Western Highlands trend: Not significant (caveats: Expanding population, All data used)

No trend available for breeding success

No trend available for clutch size

No trend available for brood size

No trend available for number of fledglings

Figure 3: Trends in breeding pairs, success, clutch size, brood size and the number of fledglings of White-tailed Eagle in NHZ 08. Western Highlands during 2009-2018.
